25X1	20	Comment. The inner low frequency landing beacon is known. The radio fustallation southeast of the Steinert forester's house probably is a radar station. For sketch of installation, see Annex 1. For location of installation see Annex 2.
25X1	3.	Comment. For location of AA gun emplacements, see Annex 2. Additional AA gun emplacements were previously observed near the luctuitz estate.
25X1	il o	Comment. Nyevilyayev, who is reported for the first time, probably is senior lieutenant. It is believed that Forkhominko and Nyevilyayev are the officers who are resconsible for maintenance work on the installations at the field.
